# FLAVOUR DEFINES PRODUCT EXPERIENCE

Flavour is a key factor in how your product is experienced – it shapes first impressions, builds trust and influences repeat purchases.

At Brefapharm, we work exclusively with natural, fruit-based flavours. Each is tested for sensory quality, formulation compatibility and reliable processing.

Flavours can be selected as shown or adapted to fit your formulation and market.

Packaging influences how your product is stored, handled and experienced. It supports safety, usability and brand perception – from first contact to repeat use.

Brefapharm provides production-ready packaging formats – from PET jars to stand-up pouches and sampling units. **All solutions can be adapted** in volume, material, closure and design to fit your brand.

# YOUR PRODUCT – WITHOUT DETOURS.

Developing a product doesn't have to mean starting from scratch. With Brefapharm, you choose between proven product concepts and tailored solutions – and we guide you through each step.

- 1 Define your shape**  
Create strong recognition with proven standard forms – or design a custom mould that makes your product stand out.
- 2 Set your colour**  
Work with naturally derived colour shades – selected to match your formulation and brand look.
- 3 Choose your function**  
Decide on your product's benefit: select from market-proven formulas or customise active ingredients and dosage to your needs.
- 4 Select your flavour**  
Use natural, fruit-based profiles – perfectly balanced with your formulation and target group.
- 5 Finalise your packaging**  
Choose the format that fits your logistics and retail goals – from jars and pouches to give-away units, branded to match.

From shape and flavour to function and format, we help you define what works best for your brand.

With a structured process and production-ready options, we reduce complexity and get your product ready for market.

**From proven to custom – every step is structured, scalable and made to fit.**
